-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Note: This is in response to an Amendment filed 04/23/2007 and Pre-Brief

Conference request filed 10/08/2007.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lenker et al. (EP 0 696 447 A2) in view of Thompson et al. (U.S. 5,957,974).

Lenker et al discloses the claimed invention in figures 1-5 and 31, a retractable sheath (32,480) disposed around an elongated shaft (34,444); a stent (P) disposed co-axially between the shaft (34) and the retractable sheath (32,480); a tubular tapered tip (located at 482) affixed to the retractable sheath (480) having an elongate region predisposed to fracturing (at 484); and stop (50) coupled to the shaft (34). However, Lenker et al does not teach a stop (50) positioned proximally of the stent (P). Rather, teaches that stop (50) positioned at the proximal region of the stent (p) as shown in figures 3 and 4.

Thompson et al teaches in figure 1 that it is known in the art to have stop (50) coupled to the shaft (34) and **positioned proximally of the stent-graft (18)**. For this reason, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the location of the stop which coupled

to the shaft as described in Lenker et al by having the stop coupled to the shaft and positioned proximally of the stent as taught by Thompson et al to order to limit proximal travel of the stent relative to the shaft during delivery configuration of the stent.

Response to Arguments

1. Applicant's arguments filed 04/23/2007 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1 and 11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
